

intrusion

NX-470-I : four-button key fob
NX-475-I : Pendant panic sensor

wireless

- compatible with NX-408-I, NX-416-I and NX-448-I receivers
- not supervised
- functions possible: arm/disarm, arm in stay/instant mode, exit function, panic and medical alarm, activate output

NX-470-I

The four-button key fob provides users with convenient options for arming the system (with or without entry delay), disarming the system and activating panic and medical alarm as well as activating outputs

Technical specifications:

Power source	12V, 33 mAh alkaline battery
Battery life (typical)	5-8 years
Transmit range	150 m (open air)
Operating temperature	0° to 50°C
Dimensions	58 x 36 x 11 mm
Weight	0.020 kg (incl. battery)
Color housing	black

ordering code	part number	product description
NXW009	NX-470-I	Four-button key fob, 433.92 MHz

- compatible with NX-408-I, NX-416-I and NX-448-I receivers
- not supervised
- water and shock resistant
- recessed panic button prevents false alarms
- can be worn around the neck
- built-in belt clip allows sensor to be attached to belt or purse
- allows to activate a 24-hour emergency alarm (police, medical or auxiliary alarm)

NX-475-I

The water-resistant panic sensor can be used throughout the premises for police, medical or auxiliary alarm activation. The water-resistant design helps to prevent damage in case the sensor accidentally gets wet.

Technical specifications:

Power source	3.5 Vdc lithium battery
Battery life (typical)	5-8 years
Transmit range	150 m (open air)
Operating temperature	0° to 50°C
Dimensions	72 x 44 x 28 mm
Weight	0.050 kg (incl. battery)
Color housing	off-white
